FLOW CONTROL

SWANSONFLO»
AN MCE» COMPANY

WE SOLVE PROBLEMS

MCE Flow Control Line Card in Wisconsin

»» SPECIALITIES

Panalarm annunciators, Rochester Instruments power quality equipment, Scientific Columbus transducers, Jemstar revenue meters.

ARI-REYCO series of direct spring acting safety relief valves for gas, liquid, and steam service.

High tech 3D scanning of OEM parts, reverse and re-engineering the remanufacture of critical parts. Lower cost, faster delivery than OEM. Solving your obsolete material requirements.

Compressed air and process filtration solutions for air/technical gases, liquids and steam.

Compressed air and process filtration solutions for air/technical gases, liquids and steam.

Fluid loading and unloading couplings, loading arms, process visual indicators.

Steam traps, condensate pumps and recovery systems, pressure reducing valves, filters and cyclonic separators to enhance steam system performance. Steam trap survey and management.

»» SERVICE AND REPAIR

MCE is a multi-brand, factory trained control valve repair center with premium mobile repair solutions.

IN-HOUSE & IN-FIELD SERVICE

- Multi-brand factory trained control valve repair center
- Foxboro Authorized Service Provider (FASP)
- Authorized Limitorque "Blue Ribbon" facility
- Valve actuation assembly and repair including field service
- Instrument field calibration, repair, and troubleshooting
- Full gauge assembly and calibration
- Preventive maintenance programs
- Predictive technology

TRAINING & EDUCATION

- Product knowledge
- Maintenance operations
- On-site sessions available
- Customized, tailored

IN PARTNERSHIP WITH MCE COMPANIES

Swanson Flo provides innovative process control solutions through quality equipment and experienced application engineering with an unrelenting desire to create proactive customer relationships.

»» INSTRUMENTATION

Flowmeter technologies, including Dynasonics® ultrasonic flow meters and Preso® differential pressure flow meters.

Turbine meters for liquid and gas. Flow signal conditioners and displays.

Transit time and doppler ultrasonic flow meter solutions.

Pressure gauges, switches, transducers & transmitters, level transmitters, temperature measurement solutions, bore and large bore needle & manifold valves, and diaphragm seals.

Comprehensive offering of Foxboro instrumentation, field device, and remote operations solutions.

Comprehensive differential pressure primary elements including V-cone, wedge, averaging pitot tubes and venturi technologies.

Liquid, level, flow, and pressure sensing solutions.

Temperature sensing devices. NIST traceable calibrations. Thermocouples, RTD's, custom assemblies.

Instrumentation products including manifold, needle, mono-weld and mono-flange valves.

Liquid level gages and valves, steam gauges, capacitance columns and switches, magnetic gauges, armored tubular and sight flow indicators.

High performance thermal mass flow meters for gas flow that provide an "In-Situ Calibration Check."

Proven, durable level transmitter isolation valves.

PROCESS VALVES

Ball valve and actuation solutions for the process and purity markets.

Offering a range of high-performance butterfly and check valves.

Engineered, in-line spring loaded piston check valves, vacuum breakers, low pressure relief. 3A Compliant if required.

Cast, carbon and stainless steel gate, globe and swing check valves.

Resilient seat and high performance butterfly valves, pneumatic actuators and accessories.

High performance butterfly valves in standard and fire safe configurations.

Durco Valves

High performance butterfly, Chemical resistant lined, plug and butterfly valves.

Worcester Controls

Top entry severe service ball valves.

Precision engineered check valves.

Comprehensive portfolio of direct mount ball valves and actuators.

Two piece, three piece, flanged, and multiport valves, non-standard ball valves, and automated accessories.

Two way and multiport rotor valves, custom valve designs.

Four-offset zero leakage butterfly valves.

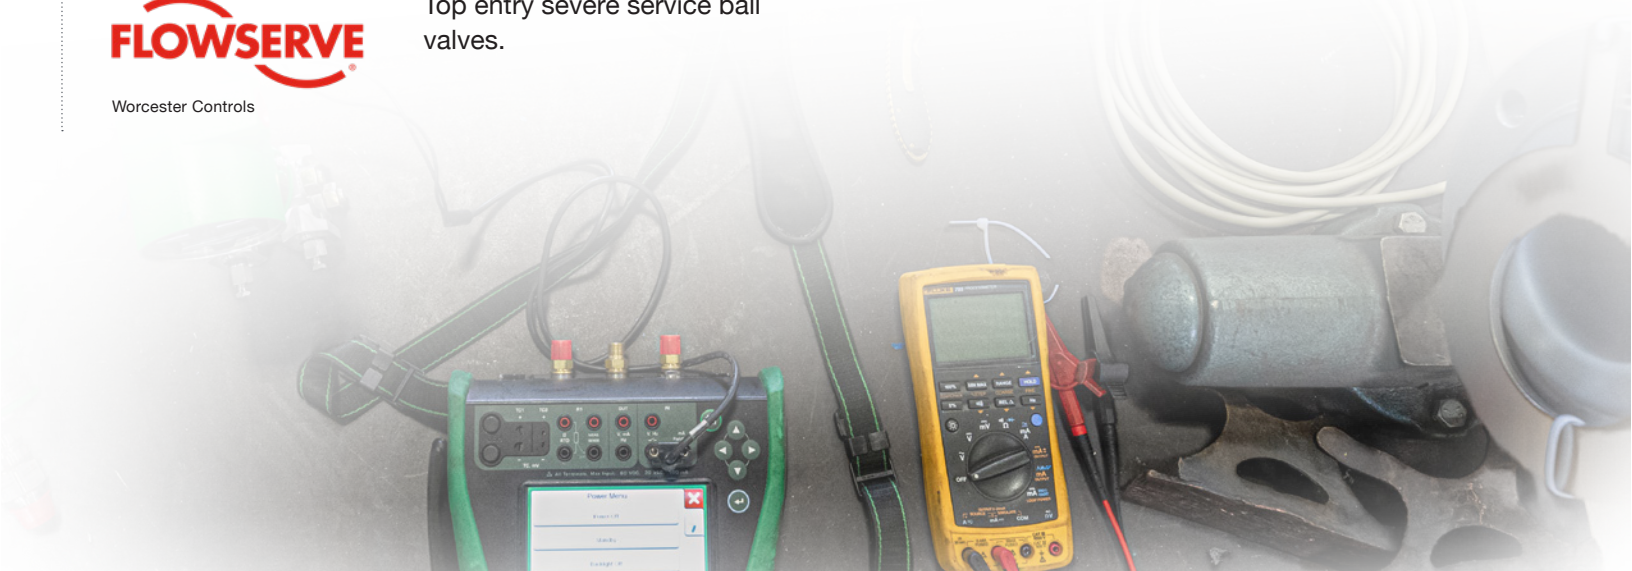

HC4 sanitary diaphragm valves and industrial diaphragm valves.

Ball, gate, globe, and check valves.

Proven leader with recognized quality in flow control valves.

»» ACTUATION & ACCESSORIES

Solenoid valves for process automation.

Unique rack & pinion pneumatic actuators and accessories.

Pneumatic, hydraulic, and electric quarter-turn and linear valve actuators.

Multi-turn and quarter-turn electric actuators for valves and dampers.

Offering a range of pneumatic actuators and accessories.

Monitoring and communications for discrete valves. Hazardous location wiring and fieldbus solutions.

Rack & pinion and electric quarter turn actuators and accessories.

Reliable, compact, TopWorx limit switches.

Atomax

Valves Pneumatic and electric actuation systems for valves and dampers. Valve monitors and positioners.

Rack & pinion and electric quarter turn actuators and accessories.

PMV

Pneumatic and electro-pneumatic valve positioners.

»» CONTROL VALVES & REGULATORS

Patented Precision pressure and flow control products. 5X more precise, 1000:1 turndown, single moving part, drainable, cleanable.

HG4 sanitary diaphragm valves and industrial diaphragm valves.

Sliding gate and globe style self contained pressure regulators and control valves.

High purity control valves, pressure regulators and piping specialties. ASME BPE certified.

Fractional flow process control valves.

High performance steam regulators.

WE ARE MCE

MCE is bringing together the industry's top solution providers under one roof to create a revolutionary set of capabilities across your technical applications in fluid, flow, air, automation, and hydraulics.

We are committed to solving your greatest challenges:

**PREMIUM-QUALITY
PRODUCTS**

**SERVICE, SUPPORT,
AND REPAIR**

**TECHNICAL
EXPERTISE**

**TRAINING TO SUPPORT
YOUR NEEDS**

OUR PROMISE TO YOU

Every product and solution we offer is designed to meet your specific needs and unique circumstances.

More than 50,000 products on hand at **25 stocking locations** including **19 walk-in stores** and **8 manufacturing facilities**.
