

JIC HYDRAULIC POWER UNIT

When you need reliable products and solutions in weeks not months, you need MCE.

Our quick-ship JIC HPU features an industry standard horizontal design and fully configurable complimentary accessories that allow you to order a complete hydraulic power system built to your operating specifications.

And MCE's commitment to lead time means you'll get it in weeks, not months.

KEY FEATURES

- JIC design
- Visual oil level gauge with thermometer
- Two clean-out doors
- Pressure compensated piston pump with adjustable max. volume stop
- Premium efficiency motor
- Suction strainer
- Three station manifold with integrated relief valve
- Glycerin filled pressure gauge with shut off
- Return filter assembly with visual clog indicator

MAXIMUM OPERATING PRESSURES

P018 Max. Operating Pressure

GPM	Motor HP			
	5	7.5	10	15
4.0	1800	2700	3000	3000
4.5	1600	2400	3000	3000
5.0	1450	2150	2900	3000
5.5	1300	1950	2600	3000
6.0	1200	1800	2400	3000
6.5	1100	1650	2200	3000
7.0	1000	1550	2050	3000
7.5	950	1450	1900	2900
8.0	900	1350	1800	2700
8.5	850	1250	1700	2550

P028 Max. Operating Pressure

GPM	Motor HP		
	15	20	25
8.5	2550	3000	3000
9.0	2400	3000	3000
9.5	2300	3000	3000
10.0	2150	2900	3000
10.5	2050	2750	3000
11.0	1950	2600	3000
11.5	1900	2500	3000
12.0	1800	2400	3000
12.5	1700	2300	2900
13.0	1650	2200	2800
13.5	1600	2150	2700

- Yellow boxes represent a maximum system operating pressure of 3000 P.S.I. due to limitations of the selected components
- Pumps are set at highest maximum flow and the corresponding pressure
- Pressure (P.S.I.) and volume (G.P.M.) are fully field adjustable for application requirements

ORDERING CODES

Code	Pump Displacement (in ³ /rev)	Motor HP	Reservoir (Gal)	Sell Price
