POWER & PUMPS 
AN MCE COMPANY

EXPERTS IN PUMPS & POWER TRANSMISSION

Since 1977, Power & Pumps has been helping facilities like yours operate smoothly by providing proven pumping, motor control, and power transmission solutions and aftermarket support.

» PUMPS

All Prime Pumps™ is the leading choice for waste and solids handling for water and wastewater applications, steel and paper mills, mining operations, and food processing plants.

Solids handling, submersible solids handling, vertical turbine solids handling, and vortex pumps for industrial water sewage and wastewater.

Hygienic and industrial Centrifugal, Lobe and Twin Screw pumps for sanitary and industrial applications.

Heavy duty non-clog submersible and dry-pit submersible pumps and submersible mixers for wastewater. Many models include a unique high efficiency clog resistant single vane scroll impeller.

Peristaltic hose pumps for bulk transfer and metering applications, air and electrically operated double diaphragm pumps.

Submersible non-clog, grinder, sewage effluent, ANSI, end-suction, vertical inline.

General purpose and heavy duty internal gear and circumferential piston pumps for wide range of viscous liquids and corrosive applications.

Air operated diaphragm pumps for transfer applications, ranging from sticky, slurry, and solid media.

ANSI pumps and parts, fully interchangeable with other major manufacturers.

Replacement pump parts for your water, wastewater or other liquids, including parts for Allis Chalmers, Aurora, Crane Deming, and Fairbanks.

Heavy-duty vertical cantilever, wet and dry mounted, submerged bearing, horizontal and submersible pumps for abrasive, corrosive, and high temperature applications.

» POWER TRANSMISSION

VLT® Aqua Drive variable speed drives and soft starts engineered for water and wastewater applications.

Low and high voltage motors, variable frequency drives, gear reducers, soft-start starters, and enclosed drive packages.

AC electric motors, adjustable speed reducers, gear reducers, and integral gear motors.

Gears, sprockets, sheaves and couplings, screw conveyors and components.

Reeves Moto-Drive, INNOVAdrive, Master XL, APG and ComboGear Reducers.

Electric and pneumatic clutches and brakes.

Low and medium voltage electric motors and adjustable speed drives, and soft starts.

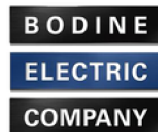

Gear reducers, integral gear motors, mounted bearings, couplings, sheaves and conveyor components.

Low and medium voltage motors, adjustable speed drives, and soft starts.

Flat top belt and chain conveyors, attachment and roller chain.

AC & DC sub-fractional horsepower electric motors, gear reducers, and adjustable speed drives.

FEATURED PRODUCT

Built-in intelligence
to keep your system running

»» **SPECIALTY PRODUCTS**

KINNEY®

Piston, dry screw, liquid Ring, rotary piston, rotary vane, vacuum pumps.

Flexitallic

Spiral Wound Gaskets.

M-D Pneumatics®

Competitor, equalizer, PD Plus, Qx blowers, and packaged blower systems.

Dynamic Motor Controls

Pump station and custom electric control panels.

Controllers, phase monitors, voltage monitors, duplex/triplex alternators, and level measurement.

Garlock
SEALING TECHNOLOGIES®

Mechanical packing and gaskets.

POWER&PUMPS»»
AN MCE® COMPANY

Custom packaged pump skids and systems.

**Stoddard
Silencers**

Blower silencers and accessories.

PUMP & MOTOR REPAIR SERVICES

- Pump and blower repairs; repairing to “factory” or upgraded standards
- Field Repairs, installation services, and VFD integration support
- Inverter Spike Resistant (ISR) wire in all motor rewinds
- Class “F” and “H” insulation rewinds
- Service truck available for pickup and delivery of pumps and motors
- Complete on-site motor computerized evaluation available
