HYDRAULIC REPAIR

# HYDRAULIC REPAIR

## FROM LONE STAR MACHINE WORKS

Lone Star Machine Works knows the value of keeping your machines up and running. We are a full-service machine shop that provides the most comprehensive hydraulic cylinder, pump, valve, and motor repair; retrofitting and rebuilding; precision machining; and welding and fabrication solutions for our customers.

## 24/7/365 EMERGENCY REPAIR

We offer solutions tailored to meet your specific needs—from planned maintenance to unscheduled emergency repairs. Lone Star Machine Works provides state-of-the-art, high-quality machining, supported by strict quality standards, exceptional service, and dependability. **We are there when you need us most.**

# WE UNDERSTAND THE HIGH COST OF PRODUCTION DOWNTIME

We service, repair, test, and sell hydraulic equipment to extend its useful life, salvage what we can from existing machines, and design new solutions entirely in-house. Whether it's maintenance, repair, or a new solution, we have the expertise and experience to minimize unnecessary and expensive downtime.

With Lone Star Machine Works, you get one vendor with many capabilities. No need to source other suppliers, bring in untested maintenance specialists, or find an expert at the last minute.

One vendor for all your repair and machining needs—lightning-fast service no matter where you are—with expert, high-touch guidance for all your challenges, large or small.

“  
**LONE STAR MORE THAN DOUBLED THE LIFE EXPECTANCY FOR OUR CYLINDERS.**”

By partnering with Lone Star Machine Works, you experience:

## SPEED

- » Repairs are received, cleaned, completely disassembled and assessed within 24 hours of arrival
- » Lone Star understands the costs of downtime and is willing to expedite repairs to reduce lost production
- » Our processes are detailed, but efficient, allowing customers to quickly return production to speed

## QUALITY

- » All contact surfaces are reconditioned or replaced
- » New seals, bearings, and replacement parts are installed by our highly trained technicians
- » Repaired equipment is built to meet, and often exceed OEM product lifecycle

## CAPABILITIES

- » No project is too large or complex
- » Lone Star fully repairs and refurbishes hydraulic cylinders up to 40 inches in diameter and 40 feet in length
- » We are able to perform repairs that are beyond the capacity of local repair shops

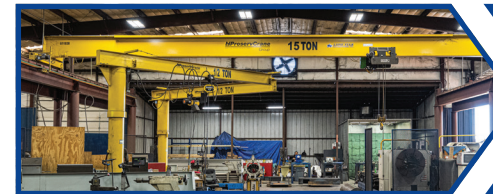

# LONE STAR MACHINE WORKS HAS THE EQUIPMENT TO MEET YOUR TOUGHEST CHALLENGES
